Mirror Specification

Mirrors distributed by W.A. Wilson Glass and Aluminum are manufactured using mirror quality glass, conforming to ASTM C 1036, the Standard Specification for Flat Glass. The mirrors shall meet or exceed quality standards set forth in ASTM C 1503-01 Standard Specification for Silvered Flat Glass Mirror. This includes reflectance measurements in accordance with Test Method E903 as stated in C 1503-01. These specifications are the most current and supersede any other mirror or glass specifications.

Mirror stock sheets should not be selected for expected use full size. Stock sheets may contain reject able defects provided cutting loss does not exceed 10%.
