

## WE NOW OFFER EASY-TO-INSTALL HIGH QUALITY GLASS DOORS FEATURING OUR GLASS DOOR RAIL SYSTEM WITH MATCHING SIDELITE RAILS

- **Complete Glass Door Rail Systems Ready for Your Installation**
- **Five Standard Architectural Finishes, Plus Custom Finishes**

Our new Easy-to-Install Door Rail System covers the entire spectrum of doors with 4", 6" and 10" Square and Tapered Door Rails in five beautiful architectural finishes. Single and double doors can be glazed with 3/8" or 1/2" glass. Complementary Sidelite Rails, Headers, Door Closers, Handles, and Locks are also available.

Standard finishes include brushed and polished stainless steel, polished brass, duranodic bronze and clear anodized aluminum. Custom finishes are also available on special order. With so many options, it's easy to see how our Easy-to-Install Door Rail System can accommodate all of your glass door needs.

*Heavy Glass Sliding Door System Also Available*

## STRUCTURAL GLASS RAILINGS, BALUSTRADES AND HAND RAILS

Now we offer a new dry-glazed system for installing structural glass railings and balustrades. With this system there's no cement mess! The glass panels are self-centering into the Base Shoe, and only take minutes to install. And for those special jobs that call for traditional wet glaze installations, we can do that too.

We have a hand railing line with a variety of configurations that complements any structural glass railing or balustrade. Also available are a wide assortment of Clamps, Standoffs, and Spider Fittings for glass in-fill panels. Offered in polished brass, brushed and polished stainless, satin anodized and duranodic bronze finishes in a variety of sizes and styles to meet most any design consideration.

## PANIC, DEADBOLT AND ELECTRONIC EGRESS HANDLES

- **Available in Polished or Brushed Stainless Steel, Custom Finishes Too**
- **Can Be Used as a Replacement for Older Panics**
- **Available in a Variety of Top or Bottom Latching Handle Configurations**

Our Glass Door Panic and Deadbolt Handles are designed to allow maximum view and a contemporary look to 1/2" or 3/4" tempered glass doors. Installations can be made on single or double doors. They are ready to be installed on 36" to 48" wide doors ranging from 90" to 102" high without modifications. "Dogging", locking the device in the open position, is easy with just a slide of a knob.
