## Product Advisory - Fabrication, Care & Maintenance of Acrylic/Polycarbonate Sheet Material

To Our Valued Customer,

This letter is a precaution to buyers of W. A. Wilson acrylic and polycarbonate sheet material.

There is a sharp increase in the use of these materials to provide barriers, sneeze guards or other degrees of separation in the marketplace in response to the Covid 19 pandemic.

Plastics are a part of everyday life and comes in many forms and formulations. Successful use requires knowledge of the product employed. Like all materials, understanding the expectations, precautions for fabrication and follow through with proper care and maintenance in the shop, as well as to the end user is critical. These products are susceptible to diminished performance or irreparable damage from improper fabrication, installation or cleaning.

W A Wilson as the distributor is providing, at point of sale and through our website [www.wawilsonglass.com](http://www.wawilsonglass.com), information necessary for successful fabrication, installation and care from the makers of these materials. We believe it is important that you read and follow the recommendations for the products and most importantly, provide the proper cleaning and maintenance information to the end user to avoid potential field failure.

**W A Wilson is the distributor and assumes no liability, warranty of merchantability, or fitness for any particular purpose for use of these materials. NO WARRANTIES ARE EXPRESSED OR IMPLIED beyond the original manufacturers limited product warranty.**
